

Dennis O'Donnell

Assistant Estimator | Project Manager

BIO

Prior to joining Bayview, Dennis developed a strong foundation in logistics, operations, and project/personnel coordination through experience in the shipment logistics and maritime industries. These roles required detailed planning, schedule management, and delicate coordination between crews and clients. At Bayview, Dennis works in both estimating and project management, bringing a structured, operations-driven mindset that prioritizes accuracy, communication, and effective coordination throughout each phase of a project.
