

PROJECT SUMMARY

Bayview provided comprehensive site maintenance services, addressing the cleaning of scale and facility sump systems containing hazardous solids, large-scale soil removal, and routine transportation of roll-off bins. The project required confined-space-certified personnel and careful logistical planning to ensure safe and efficient operations. Bayview worked closely with the customer to coordinate activities around their operational equipment, demonstrating the company's ability to manage complex, high-risk site maintenance tasks while maintaining safety, compliance, and minimal disruption to ongoing facility operations.
